RECOMMENDATIONS

- 1 Focus on acquiring movies in the top genres and rated movie
- 2 Focus on the top 10 countries. They may have a low customer count, but they bring in most of the revenue. Investigate why and try to expand customer base.
- 3 Develop a customer loyalty program to gain a loyal customer base.

NEXT STEPS

- By starting a loyalty program, you will gain customer profile data. Therefore, you can develop targeted marketing strategies toward certain customer types and preferences.
- Also acquire more data about mid and lower revenue markets to see why they are underdeveloped and see if it is worth investing in.

The main display area is a dark blue rectangle containing white text. In the background, there are faint, light blue technical diagrams, including a large circular scale with degree markings (0 to 210) and arrows, and a smaller circular diagram with concentric circles and arrows.
